

Tunics Size Guide

Our sizing charts are to be used as a general guide. If you are between sizes we would suggest selecting the larger option.

We source our clothing from a wide range of producers and so styles may fit differently.

Style, cut and fabric will also have a bearing on how a garment will fit so please refer to the individual product descriptions for more information.

Garment lengths differ from style to style so please refer to the individual product descriptions for this.

Please note these lengths are approximate.
